GET SET FOR A SUMMER OF SPORT!

The European Football Championships have just kicked off, Wimbledon takes serve in just 2 weeks and the Rio Olympics gets set to start just a few weeks later! So whether you're sporty or not, this summer is going to be action packed... So be Inspired, get Involved and get Active!

At Reformed Plastics we have worked with local sports and leisure venues like The West Hants Club and The Pilot Pub to create products that allows you to relax and enjoy the summer of sports. The West Hants Club is more than just a tennis club, as it boasts internationally renowned facilities that offer the opportunity to enjoy the best in sports, fitness and relaxation.

The club is for both individuals and families so whether you want to exercise on your own in a friendly environment, spend more time together as a family or simply come down and take some time out to relax, we have something for everyone to enjoy in our beautifully maintained complex & grounds.

The West Hants Club

"At The West Hants Club we strive to provide the very best in health & fitness to all our members & guests. We also feel it's important for our facility to be as sustainable as possible. Therefore several years ago when we were looking to invest in new furniture that would sit permanently court side for tennis spectators we decided to choose Reformed Plastics as we felt they were a fantastic local company who were able to offer us environmentally sound products at competitive prices.

"I'm pleased to report that 5 years on the benches we bought still look as good as new, which is why last summer when we were upgrading our children's play area we had no hesitation in choosing Reformed Plastics again to provide furniture, fencing and as always, an excellent price & service!

"Thank you & I look forward to dealing with you again as & when the opportunity arises."

- Peter D Elvissm, Chief Executivem, The West Hants Club (Feedback Received – June 2016)

WHY CHOOSE REFORMED PLASTICS?

Reformed Plastics produce a wide range of Outdoor furniture, Decking, Fencing, Planters and Landscaping products so that you can relax outdoors. You can also feel good about yourself knowing you're doing your bit to help & protect the environment as our products are made from 100% recycled plastic. All the plastic used is recycled in the UK and is a perfect alternative to wood. Our aim is to help rebuild the environment by utilising a commodity which people would otherwise just throw away, and so turn what to some would be rubbish into a valuable product for everybody.

The Benefits of Reformed Plastics products:

- It is UK designed and built
- Bespoke design solutions
- Safe and secure
- No splintering
- Maintenance free
- Easy to clean
- A range of colours and textures
- Will not need painting or staining
- Will never rot
- Sustainable sturdy alternative to traditional materials
- Resistant to salt water
- Resistant to chemicals
- Resistant to insects and bacteria
- Resistant to vandalism
- Non-slip decking
- Lasts for over 50 years
- Strong, durable and wear resistant

WHY ARE OUR PRODUCTS DIFFERENT?

Plastic lumber is the perfect alternative to anything that has ever needed maintaining. It can be cut with a regular saw, drilled, nailed or screwed into and routed as easily as wood, but can also be cleaned with anything from only a damp cloth to a pressure washer if you wish, without causing any harm.

WHAT CAN THE PLASTIC BE USED FOR?

At Reformed Plastics we stock, manufacture & sell direct to you finished products all made from 100% Recycled Plastic. They're safe as they will Not splinter or tire, so they'll stay looking great for good, Guaranteed!

Our products are perfect for Schools, Businesses, Restaurants and the Home, just to name a few. Our Maintenance Free plastic has many practical & very useful properties. It can be used for many different applications, such as Decking, Fencing, Outdoor furniture, Playground equipment, Planters, Landscaping, Bollards, Signage & Construction etc. The physical advantages it has over traditional materials are staggering therefore making it a much more cost-effective alternative in the long term!
